THE statement made by the N. C. Daily News, that the Cathay is an Italian steamerwhich had been lent to the P. & O. Company for one voyage to take the place of the Robilla, is incorrect. The mistake arises doubtless from the fact that the Cathau, which is a well-known P. & O. boat. has recently been running on the Italian line of the P. & O. Company. The Bokhara took the place of the Robilla.

A case, highly-illustrative of the coldblooded mercenariness with which the traffic in Chinese girls for brothel slavery is carried on, came before Mr Wise at the Police Court to-day. Li Sing, a shopkeeper, and Ho Choy Kum, a widow, were charged with bringing two girls into the colony for the purpose of prostitution. One of the A high class fertilizer for pot plants and girls said she was offered \$230 to go to for use in the garden generally: it supplies | Singapore as a prostitute, the defendants to get ten per cent. The girl wanted \$280 and the transaction therefore did not come off. The defendants were sentenced to six months' hard labour each.

> THE proximity to Ohinese territory seems to have a deteriorating effect on the Chiness members of the colonial police force at Yaumati. Two of these gentlemen were brought before Mr Wise to-day charged with misconduct as police constables. It appeared, that they went on two occasions to the shop of a coal dealer and tried to make him pay a 'squeeze' under the name of festival money, threatening to make things disagreeable for the shopkeeper if he refused. On the occasion of their second visit a constable who was not in the swindly appeared, and the shopkeeper claimed has protection. The defendants were fined \$10 1657 each, with the alternative of a month's hard

The publication of this issue commenced THE play at the Ko Shing Theatre last night was pleasantly varied by a little incident which was vastly appreciated by the audience. Two of the actors had previously had a few words with a ticket-taker about the admission of two ladies without tickets, and the ticket man took advantage of his first spare moment to have the matter out on the stage. He ruined the classic dialogue that was going on by his rude remarks, and the result was a fight, which was received with immense applause, or rather with the Chinese equivalent of applause noise. A six-foot Scotch policeman, with a strong Aberdeenshire accent, then appeared, and in a few seconds the stage picture resembled the last scene in Hamlet, plus the policeman. The two

M. PAVIE, the explorer, has arrived in Paris on his return from an expedition to Indo China. In an interview with a reprecentative of the Soleil, he declared that he had completely achieved the object of his mission, which was to make a map of the Indo-Chinese Penineula, lumprising the whole region between Campodia and Yunnan, and extending as far as Burms. The map will be published, togother with an account of the labours of the expedition. M. Pavie added that, contrary to the assertions of some English journals, he had everywhere been excellently received by the Chinese and Sizmeso authorities.

THE Wesleyan Conference concluded its labors with the significant appointment by a large majority of Professor Davison to the chair of theology. His recent address on the inspiration of the Bible and his broad views have excited slarm smong the That they reminded me of the Irishman orities do something for the relief of the orthodox. His election proves the strength of the broad church in English Wesleyanism. Another victory for the forward party was the appointment of a committee to try to obtain an act of Parliament rescinding Wesley's deed, under which the three-year ministerial circuit system prevails. If such an act is obtained the itinerant Wesleyan ministers, the dominant feature of the church, will cease to exist.

THE three weeks' naval manouvres just concluded in the North sea have been keenly watched by every government in Europe. Experts blame the Admiralty for auddenly changing the plans of the tactical mancenvres, thus spoiling the initiative of the Admiral commanding. In spite of the Admiralty's blundering the evolutions yielded results of immense importance. They have shown the rapidity of mobilization of the English fleet in reality; that new and complicated instruments of sea warfaro like the battle ships Nanspareil and Nile can be equipped, manned and sent to sea in a few days ready for action. They have also proved that the 110-ton guns used on the Sampareil can be worked rapidly and successfully, penetrating nineteen inches of iron armor and fifteen inches of any compound armor affoat at a range of 2002 yards. Another discovery made has modified the accepted ideas of the valve of torpedo vesseis. In no instance did a torpedo vessel succeed in an attack on an ironelad. The system followed against torpedo vesels converted the defence into an attack. Instead of waiting for the torpedo vessels the war ships went for them. Out of twenty torpedo boats four were adjudged captured, while two protecting ships were destroyed and seventeen attacks repulsed. The superiority of an active over a passive defence against torpedo bosts is, therefore, held to be demonstrated.

'FRAGRANT WATERS' MURMUR

That the Hongkong Cricket Team has started for the Empire City, to do battle against the Shanghai bats.

That they took with them the hearty good wishes of this community goes without seying.

That the strictures passed upon the Team in some quarters were somewhat severe. That the staid and sombre cracle situated opposite to the site of the new Dairy Farm Depot has again been discovered nodding.

That the rowdy account of the peacoful 'send off' given to the Cricket Team was read here with incredulous astonishment. and readers naturally looked again to the heading of the paper to see if their eyes had not deserved them.

That it is believed the writer of the account was celebrating a birthday, but how the frivolous and mislesding mixture of misstatement and sods water ever passed the eagle eye of my old friend of the D. P. is a mystery.

That I was not present on the Taisang when the cricketers left, but the testimony of many who were there clearly shows that there was no rowdyism of of any kind on board.

FOOCHOW NOTES. (Fauchow Echo!)

Foodbow, Sept. 5 h. The fire of Saturday evening last was a a large paper store and ended in its total destruction. Happily it was surrounded by high fire walls, so that the flames were prevented from spreading to the adjoining buildings. The loss is estimated at 4.000 to 5.000 dollars. The fire originated from a coolie carelessly throwing the remains of a smoked pipe, still burnon to a pile of waste paper which, slowly igniting at first, gradually burst into a big flame too formidable to get under. Pawn shops are the native barometer of good or bad times and they point just now

to times of unusual badness. We learn from the city that all the second class establishments are quite unable to take in more goods, their store rooms boing full and the capital of the proprietors exhausted. Day after day pames away without any article being redeemed, and the difficulty of realizing pawned property, held beyond the limit of time, is extremely great. The first class pawn brokers are not yet affected to the same extent, but feel it necessary to be very cautious, and it is enid that the advances they are willing to make on almost every kind of property are ridiculously small. It is to be feared that there is a great deal of distress amongst the labouring classes; and, according to all accounts, the Blop-keepers and traders are
